Money Mania

Supply List

1. Money Mania Problem Cards
2. Money Mania Game Board– 1 per player
3. Bingo Chips
4. Scrap paper or calculator– optional

Directions

1. The goal of this game is to get 4 markers in a row, vertically, horizontally, or diagonally, similar to Bingo.
2. Choose one player to be the Money Mania Manager and hold the Money Mania cards.
3. Distribute game boards and bingo chips to all other players.
4. The Money Mania Manager will show one problem card at a time, giving the players time to solve the Money Mania problem in their heads. After a problem card is used, it should be set aside.
5. Once the other players have solved the problem on the Money Mania card, they should look for the answer on his/her game board and cover it with a marker.
6. When a player has four markers in a row diagonally, horizontally, or vertically, the player yells, “MONEY MANIA!”

Note: Other players **should NOT dump their game boards** until the winner’s answers are checked. Have the winner read the row of 4 answers, checking them against the answers on the backs of the problem cards that have been shown. If the person’s **answers are not correct, continue the game.**
